PandaCoin Whitepaper (V1)

Panda Coin

The Cutest Meme Token in Solana Ecosystem

Jan, 06 2021

Introduction

Panda Coin (\$PANDA) is Solana's memecoin, aiming to be community-owned and fun.

It was inspired by Dogecoin, Samoyedcoin and it aims to help grow Solana's ecosystem by appealing beyond its core, mostly composed of highly technological coins. It has all the upsides of Solana's blockchain (high scalability, high speed, low fees) while being a fun cryptocurrency to trade.

Community

While the addition of meme tokens to the Solana Network, their communities may start migrating to Solana, bringing their pumping objectives with them.

As a result, we place a high value on community, and every week, we host several community contests within PandaCoin, with our native token as the prize.

Backed by the PandaCoin community with 19k+ discord users and 32k Twitter followers, 17k Telegram followers, the current total holder of PANDA is around 11k+ and we are still growing!

Tokenomics Details

1.3B of the total supply of PandaCoin has been burned, and currently the total max supply of PandaCoin is 8.7B and allotted for different purposes listed below:

- 40% or a total of 4,000,000,000 PANDA will be allocated for staking rewards.

We encourage our holders to hold PANDA more and DEXs need to have a high supply of PandaCoin to facilitate effective trades, thus users will be able to stake their PandaCoin. The Staking system is in development at the time of writing this whitepaper, the system will reward those who stake their PANDA on our system.

Our Roadmap

Phase 1 - Quarter 4 2021

1. Complete 3 airdrop events with total 1,000,000,000 \$PANDA
2. Listing in market
 - First of all, we will list \$PANDA in DEX (Serum DEX

<https://portal.projectserum.com/#tabSection>)

- Then we will list in CEX such as gate.io, MEXC, Bittrue, etc.

3. Burn 1,000,000,000 \$PANDA to decrease total supply.

Phase 2 - Quarter 1 2022

1. Continue listing on another markets

- DEX like Orca, Raydium Fusion Pool, etc. We need to increase the trading volume so we can list there easier.

- CEX like XT.com, Houbi Global, gate.io, etc. Many exchanges have contacted us after Bittrue listing including Houbi Global with some conditions. In the current situation, it's hard for us to list Houbi but I believe we will be listed on really big exchanges in Phase 2.

2. Release \$PANDA staking system

We had plans for this at the beginning of PandaCoin, and in phase 2, our dev team will concentrate on releasing this system ASAP. So we don't have to do it manually by using a weekly commission, tier system, it's more convenient when using our own \$PANDA staking.

3. Launch Panda NFT

NFT is really hot right now, and Panda Coin cannot be outside of that trend. We will release our own cutie Panda on NFT world.

Our team has so many ideas right now to grow our community but let us finish these 3 big items one by one, then hope the Roadmap for Phase 3 will come again before quarter 2 2022.
